A SHIPPER'S RESOURCE

Marine, Vessels and Yachts Import Readiness Checklist

12 things to confirm before you book your next shipment, so the permits, customs treatment and delivery plan are settled early.

Why Late Compliance Costs You in Marine

For marine, vessels and yachts cargo, the cost is rarely the freight. It is a permit, classification or handling requirement discovered after the goods have already shipped. Typical cargo includes yachts, speedboats, barges, tugboats, LCTs, marine engines, navigation equipment, cranes, winches and vessel spares. Mills Permits, Mills Customs and Mills Logistics work together to settle these points before you book.

Use this list before you book. Any box you cannot tick is the item to resolve first.

The Readiness Checklist

- [ ] **1. The scope of what you are importing is defined**
  List the vessel or equipment, its condition and the purpose it will serve in the Philippines.
- [ ] **2. MARINA requirements are confirmed**
  Confirm whether registration, permits or approvals from MARINA apply to your vessel or equipment.
- [ ] **3. PPA coordination is planned**
  Confirm what the Philippine Ports Authority needs for arrival and discharge, and who will coordinate it.
- [ ] **4. NTC rules for radio equipment are checked**
  For radios and navigation equipment, confirm whether an NTC permit applies.
- [ ] **5. Class and survey requirements are known**
  Confirm whether class or survey documents are needed, and who will arrange the inspection.
- [ ] **6. Classification is agreed**
  Agree on tariff classification for the vessel, engines and equipment, and keep descriptions consistent.
- [ ] **7. Valuation documents are gathered**
  Collect the purchase contract, invoices, survey and condition reports that support the declared value.
- [ ] **8. BIR and tax treatment is checked**
  Confirm the tax steps that apply, including any BIR requirement, before the vessel or equipment arrives.
- [ ] **9. The transport method is chosen**
  Decide how the vessel or equipment will be moved, such as on its own hull, on deck or as breakbulk.

The Readiness Checklist (continued)

- [ ] **10. Lifting and handling are planned**
  Plan cranes, slings and supports for lifting vessels or heavy equipment at port.

- [ ] **11. Insurance is coordinated**
  Confirm cover for the transit and any stay in port, through licensed insurance partners.

- [ ] **12. Compliance records are kept**
  Keep registration, survey, customs and permit documents together in one file for the vessel.

Moving marine cargo?
Let us check it before it ships.

Book a short call and we will review your product, permits and delivery plan before it moves.
