A SHIPPER'S RESOURCE

Vessel and Marine Equipment Readiness Checklist

12 things to confirm before you book your next shipment, so nothing slips at the border.

Why Marine Paperwork Costs You

Vessels and marine equipment cross customs, port, registration and maritime authority requirements that are easy to sequence wrongly. Mills Marine coordinates with Mills Customs and Mills Permits so each approval is requested at the right moment.

Work through each point before you book. If you cannot tick a box, that is the item to resolve first.

The Readiness Checklist

- [ ] **1. The scope of what you are bringing in is defined**
  List the vessel, equipment or spares involved, their condition, and the purpose they will serve in the Philippines.

- [ ] **2. Maritime authority requirements are checked**
  Confirm whether registration, permits or approvals from MARINA apply to your vessel or equipment.

- [ ] **3. Port authority coordination is planned**
  Confirm what the port authority needs for arrival, berthing and discharge, and who will coordinate it.

- [ ] **4. The vessel importation route is set**
  For a vessel, decide how it will arrive and under what status, since this affects the customs steps that follow.

- [ ] **5. Yacht and leisure-vessel needs are considered**
  For yachts, confirm any special requirements for entry, use and registration, and check them before purchase.

- [ ] **6. Marine equipment is classified**
  Agree on the tariff classification for engines, navigation equipment, cranes and winches, and keep it consistent across documents.

- [ ] **7. Valuation documents are gathered**
  Collect the purchase contract, invoices, survey and condition reports that support the declared value.

- [ ] **8. Duties and taxes are planned**
  Estimate what is due and when, and confirm any treatment you expect to rely on before the cargo arrives.

- [ ] **9. Inter-island shipping is arranged**
  If the cargo moves between islands after arrival, confirm the carrier, schedule and documents required for that leg.

The Readiness Checklist (continued)

- [ ] **10. Vessel spares delivery is planned**
  For time-sensitive spares, agree on a priority route and a delivery point that matches the vessel's port schedule.

- [ ] **11. Marine insurance is coordinated**
  Confirm cover for the transit and any stay in port, through licensed insurance partners.

- [ ] **12. Ownership and compliance records are kept**
  Keep a single file of registration, survey, customs and permit documents for the vessel or equipment.

Not sure every box is ticked? Let Mills Marine review it with you.

Book a short call and we will walk through your next shipment and flag anything to resolve before it moves.
